

# Visual Studio Code Setup:

## Download:

## Visual Studio Code in Action

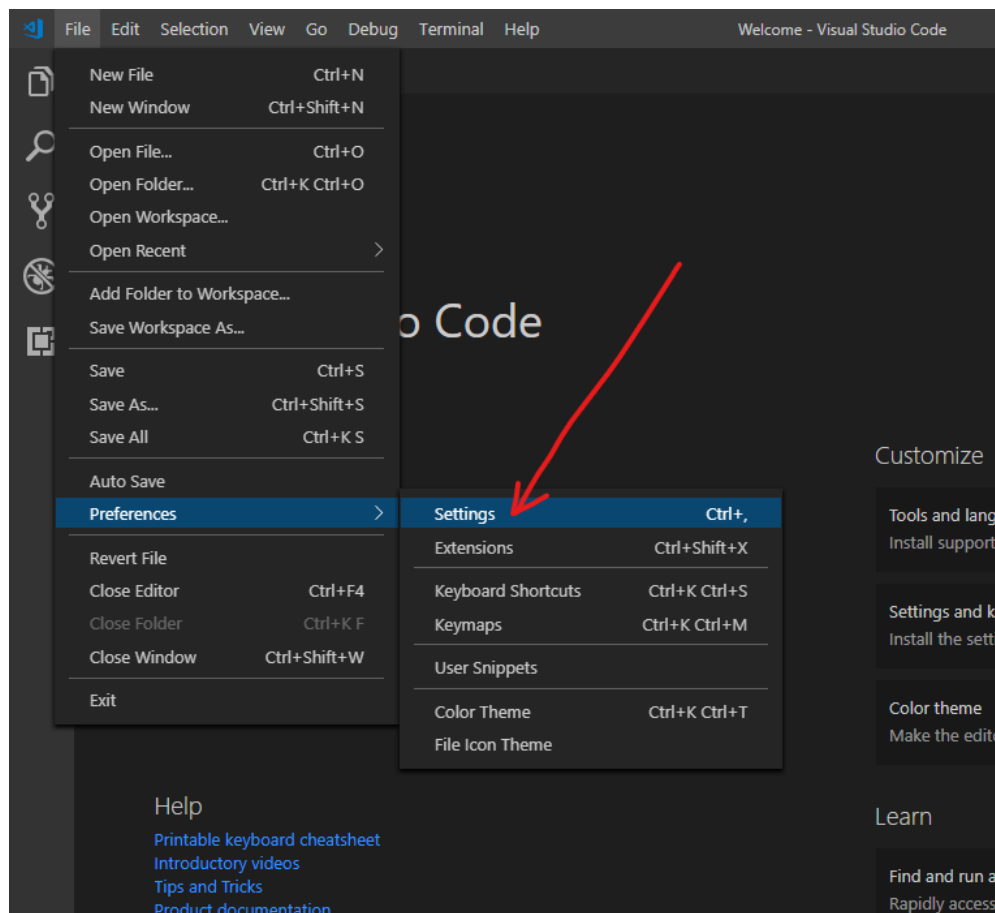

- Request feat
- Report issue
- Watch video

Install:

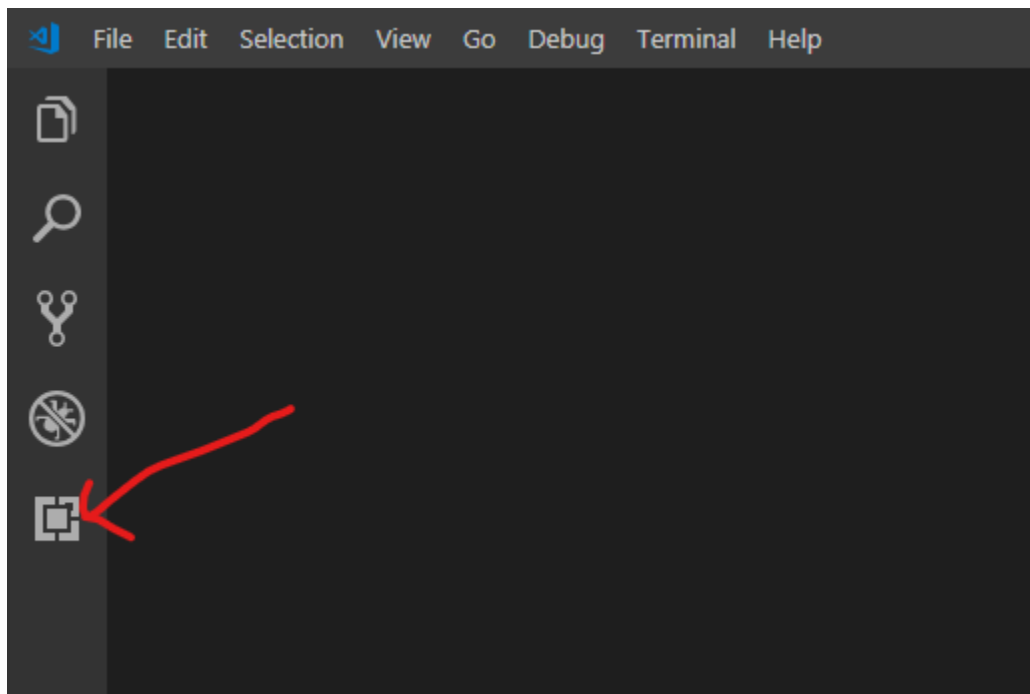

Click “Next” a few times, carefully reading any terms and conditions.

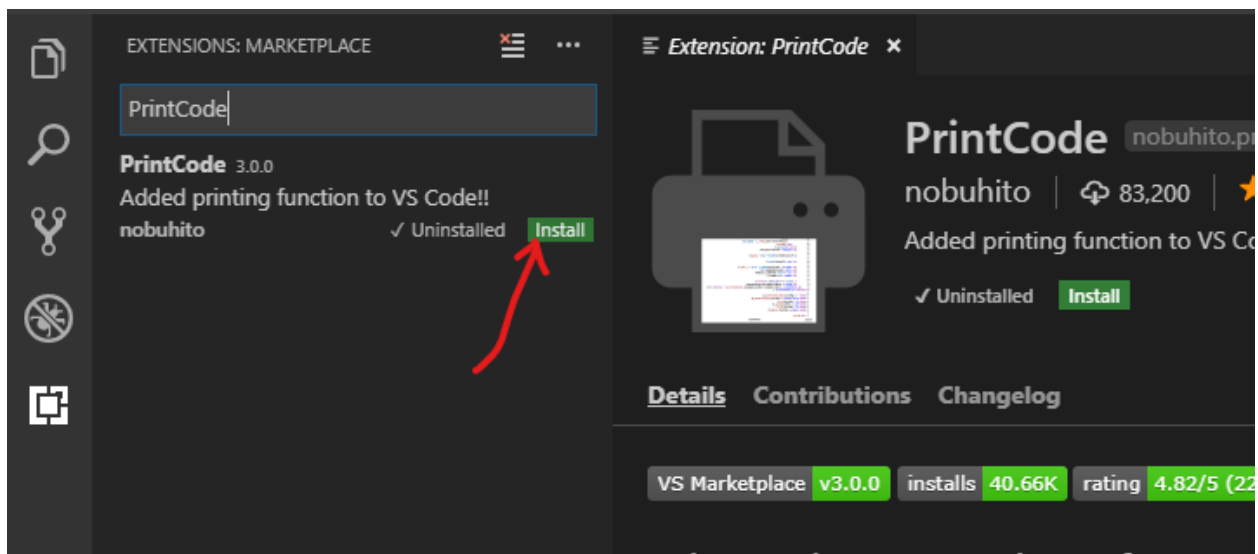

Change settings for font , colors etc. to your preference.

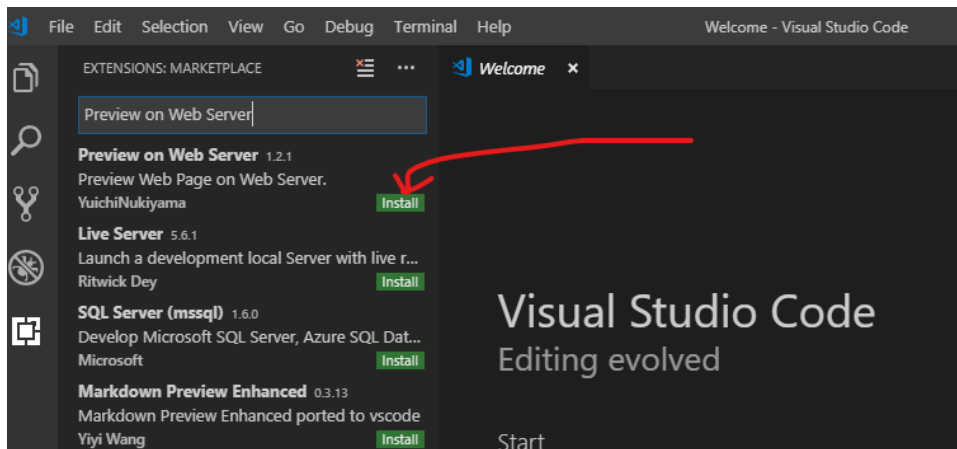

## Extensions:

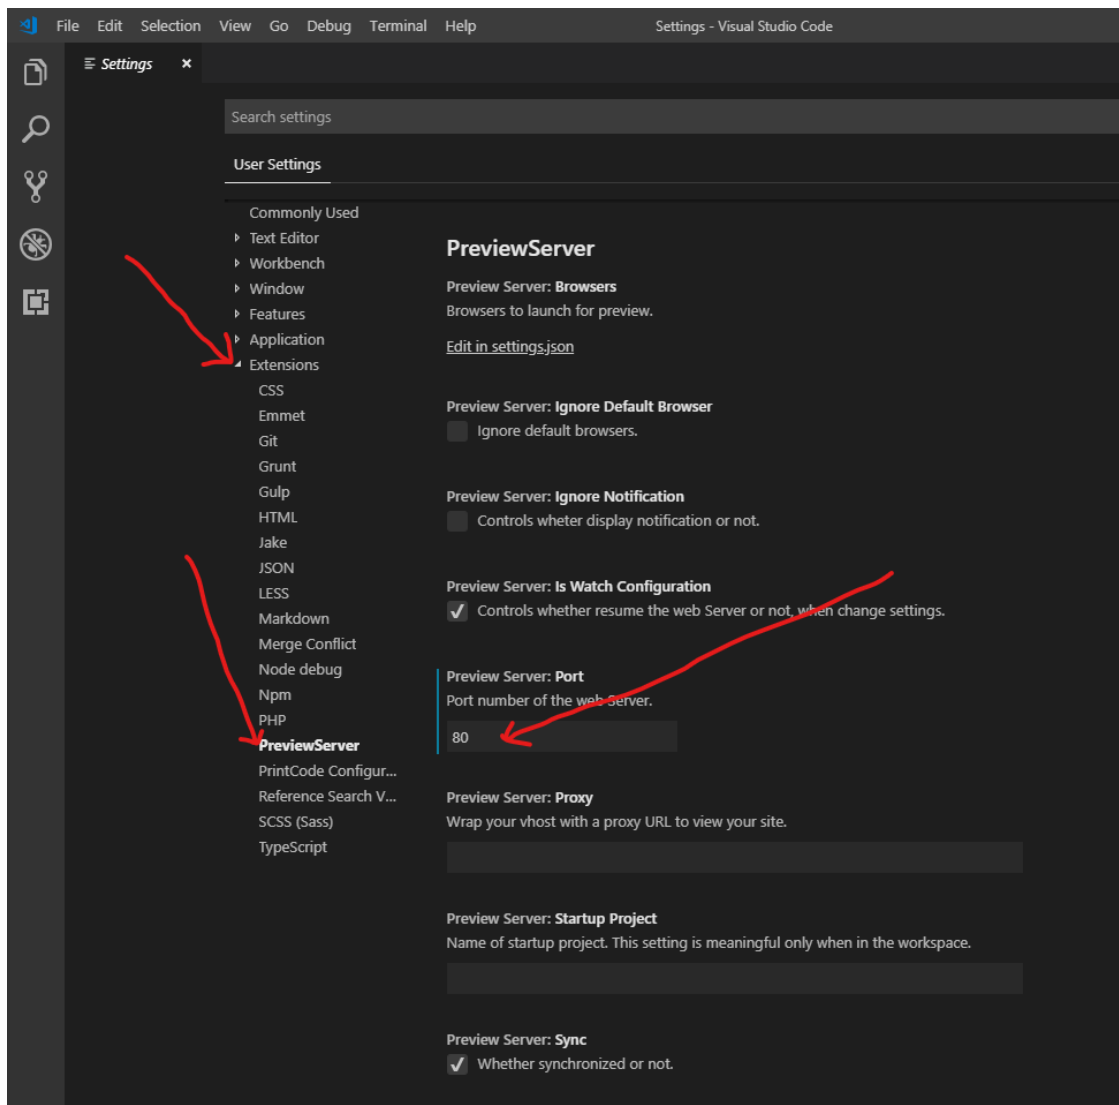

## PrintCode:

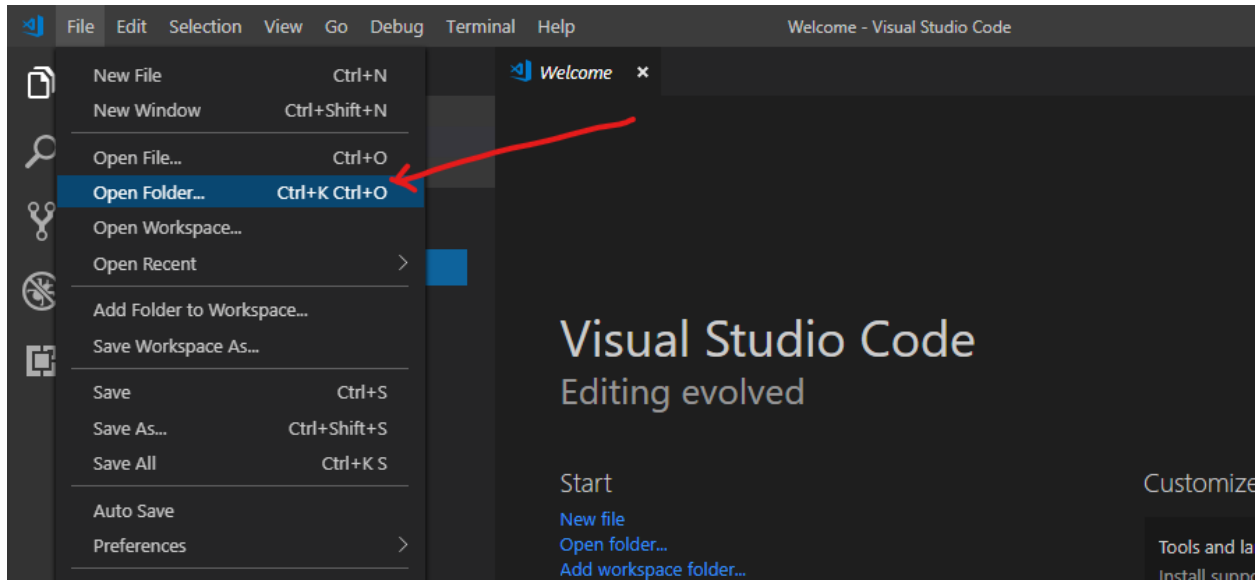

Preview on Web Server:

Settings for Preview: Fix your local web server port.

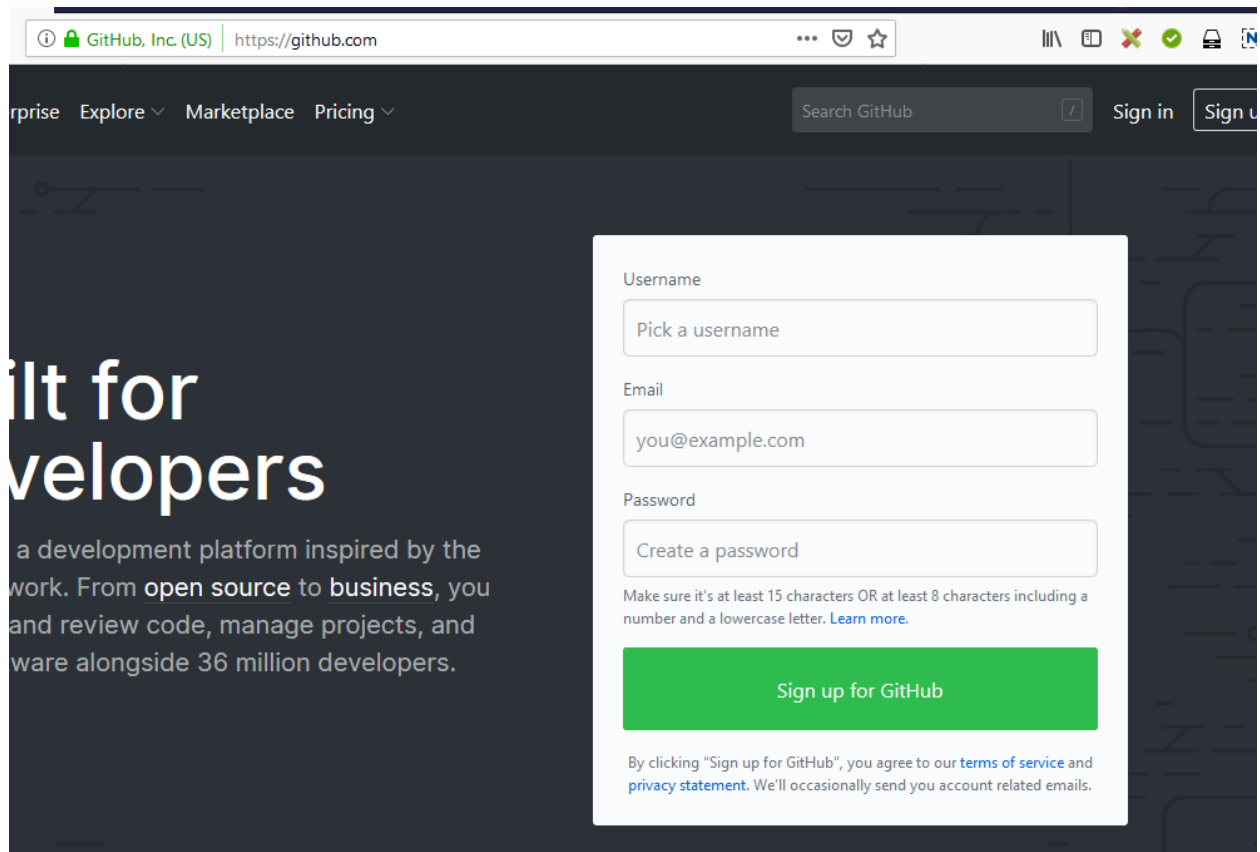

### Open HTOCS folder:

1. Create new folders for all assignments/exercises in “htdocs”.
2. You can use CTRL + SHIFT + L to execute any open file.

## GitHub Account and Set up:

A screenshot of the GitHub website's sign-up page. The browser's address bar shows 'https://github.com'. The page has a dark background with the text 'Built for developers' and a description of GitHub as a development platform. A white sign-up form is centered on the right. The form includes fields for 'Username' (with placeholder 'Pick a username'), 'Email' (with placeholder 'you@example.com'), and 'Password' (with placeholder 'Create a password'). Below the password field, there is a note about password requirements and a link to 'Learn more'. A large green button labeled 'Sign up for GitHub' is at the bottom of the form. Below the button, a small disclaimer states that by signing up, the user agrees to the terms of service and privacy statement.

Username

Password

Create a password

Make sure it's at least 15 characters OR at least 8 characters including a number and a lowercase letter. [Learn more.](#)

Sign up for GitHub

By clicking "Sign up for GitHub", you agree to our [terms of service](#) and [privacy statement](#). We'll occasionally send you account related emails.

1. Choose your unique username
2. Enter your email
3. Choose a password
4. Sign up.

Once you sign up, you will get an email to validate your email id. Follow the steps outlined in the email and then go to the next steps:

## Step 1

 GitHub, Inc. (US) | <https://github.com/join/plan>

### Choose your subscription

With tools developers love and the world's largest open source community, there's no wrong choice.

#### Free

The basics of GitHub for every developer

## \$0

per month

**Includes:**

- ∞ Unlimited public and private repositories
- ✓ 3 collaborators for private repositories
- ✓ Issues and bug tracking
- ✓ Project management

Are you a [student](#)? Get access to the best developer tools for free with the [GitHub Student Developer Pack](#).

#### Pro

Pro tools for developers with advanced requirements

## \$7

per month  
[\(view in CAD\)](#)

**Includes:**

- ∞ Unlimited public and private repositories
- ∞ Unlimited collaborators
- ✓ Issues and bug tracking
- ✓ Project management
- ✓ [Advanced tools and insights](#)

☐ **Help me set up an organization next**  
Organizations are separate from personal accounts and are best suited for businesses who need to manage permissions for many employees. [Learn more about organizations](#)

☐ **Send me updates on GitHub news, offers, and events**  
Unsubscribe anytime in your email preferences. [Learn more](#)

## Step 2

# Welcome to GitHub

You'll find endless opportunities to learn, code, and create, @davneetsheridan.

Completed  
Set up a personal account

Step 2:  
Choose your subscription

Step 3:  
Tailor your experience

What is your level of programming experience?

- ☐ None—I don't program at all
- ☐ New to programming
- ☐ Somewhat experienced
- ☐ Very experienced

What do you plan to use GitHub for? (Select up to 3)

- ☐ Learning to code
- ☐ Learning Git and GitHub
- ☐ Host a project (repository)
- ☐ Creating a website with GitHub Pages
- ☐ Collaborating with my team
- ☐ Finding a project to contribute to
- ☐ School work / School-related project
- ☐ The GitHub API
- ☐ I don't know yet
- ☐ Other (please specify)

What are you interested in?

e.g. tutorials, android, ruby, web-development, machine-learning, open-source

Submit

[skip this step](#)

## Step 3

 Search or jump to...  Pull requests Issues Marketplace Explore

### Repositories

Your most active repositories will appear here. [Create a repository](#) or [explore repositories](#).

## Learn Git and GitHub without any code!

Using the Hello World guide, you'll create a repository, start a branch, write comments, and open a pull request.

[Read the guide](#) [Start a project](#)

## Discover interesting projects and people to populate your personal news feed.

Your news feed helps you keep up with recent activity on repositories you [watch](#) and people you [follow](#).

[Explore GitHub](#)

 ProTip! The feed shows you events from people you [follow](#) and repositories you [watch](#).

 [Subscribe to your news feed](#)

## Step 4

### Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)

Drag additional files here to add them to your repository  
Or [choose your files](#)

[index.php](#)

**Commit changes**

Uploading the initial files

Write any comments for any changes you did.

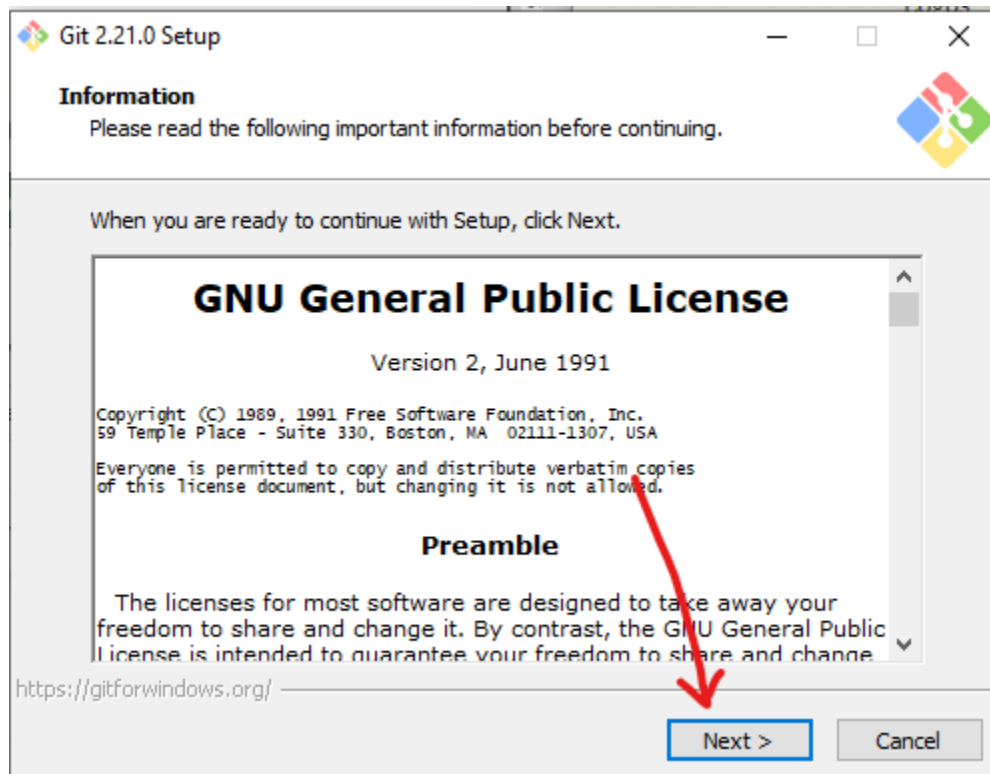

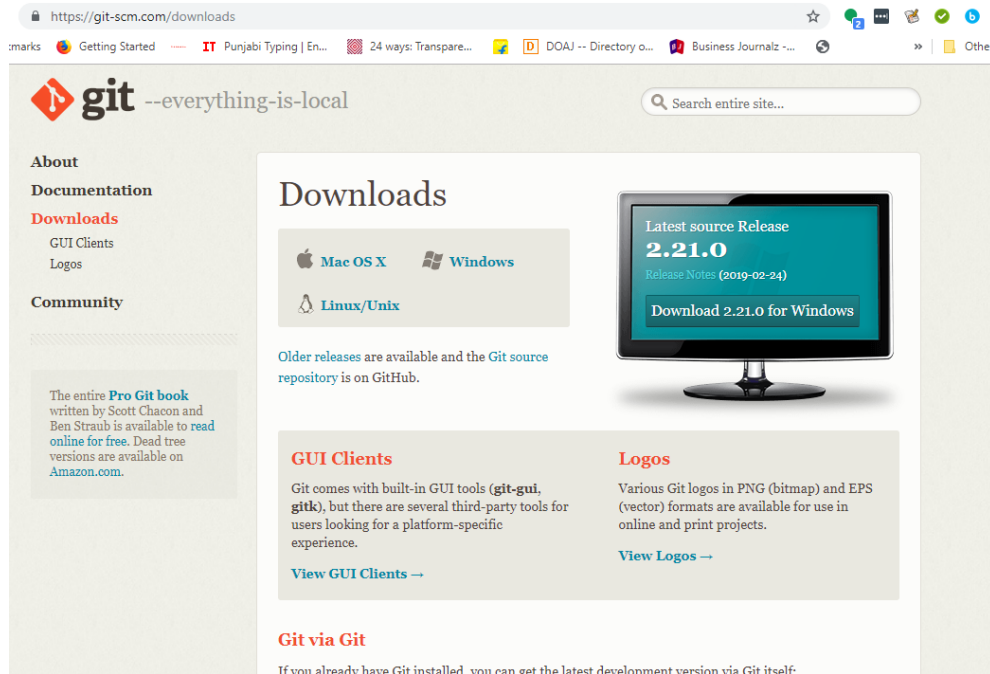

☒ Commit directly to the `master` branch.

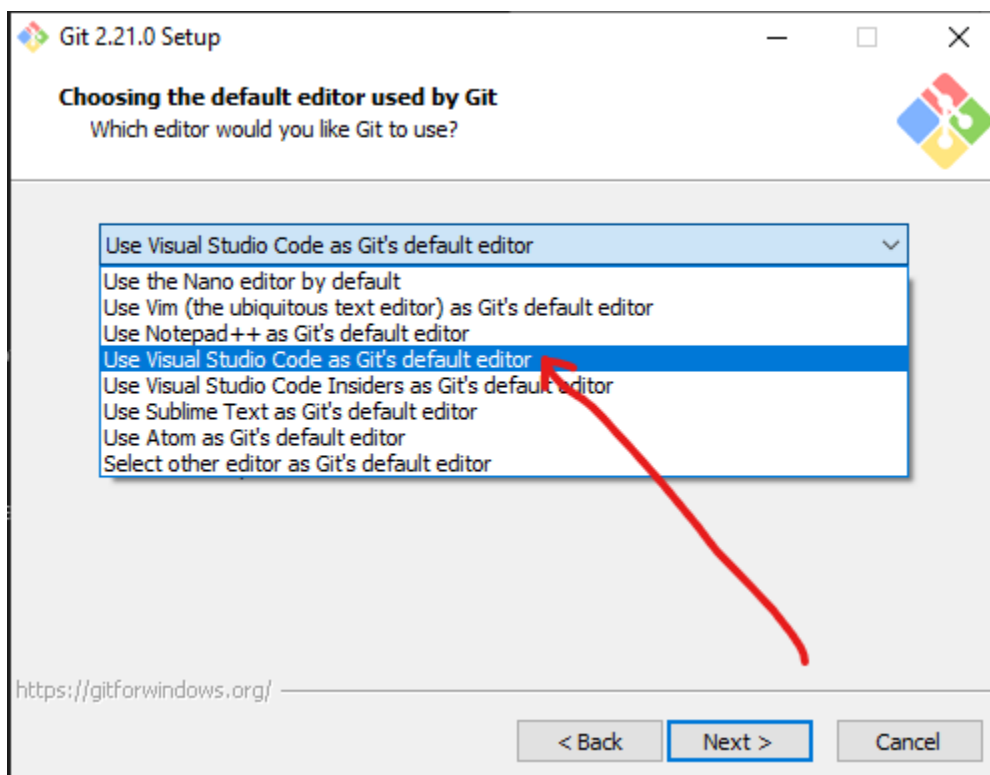

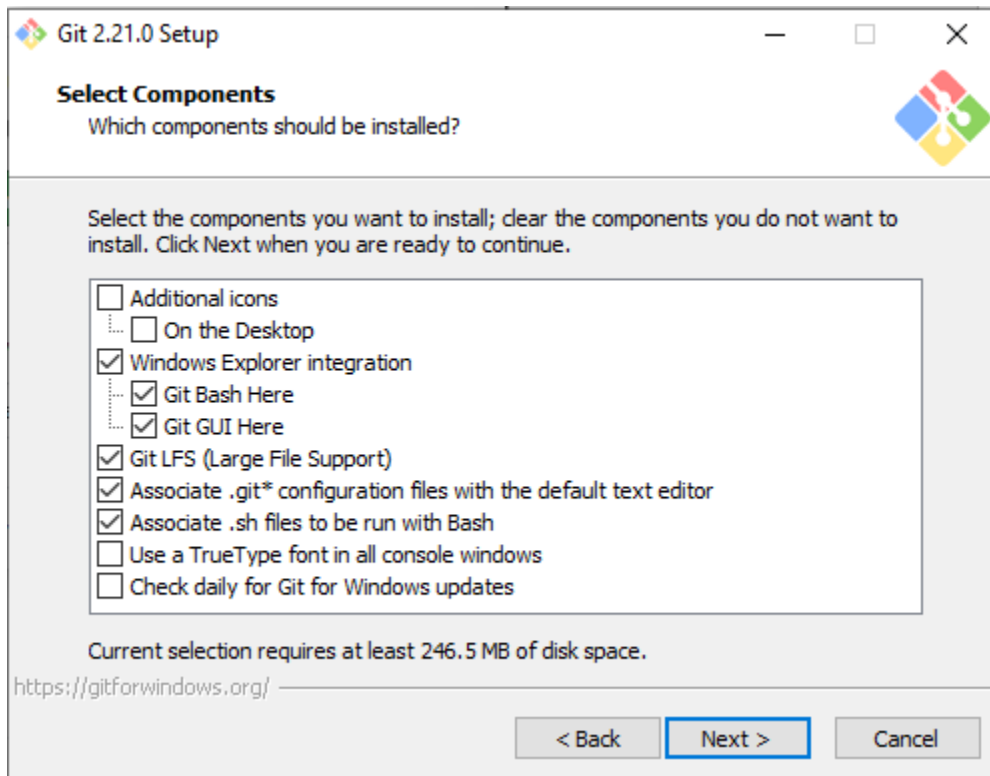

☐ Create a new branch for this commit and start a pull request. [Learn more about pull requests.](#)

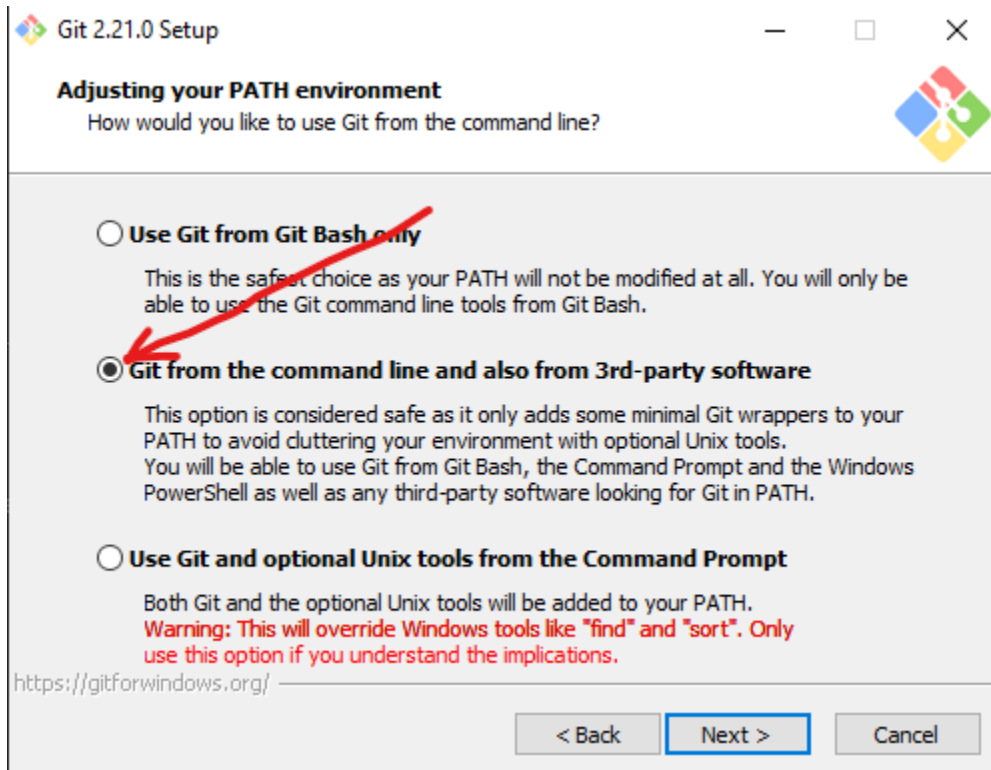

[Commit changes](#) [Cancel](#)

## Step 6: Installing Git SCM:

<https://git-scm.com/downloads>

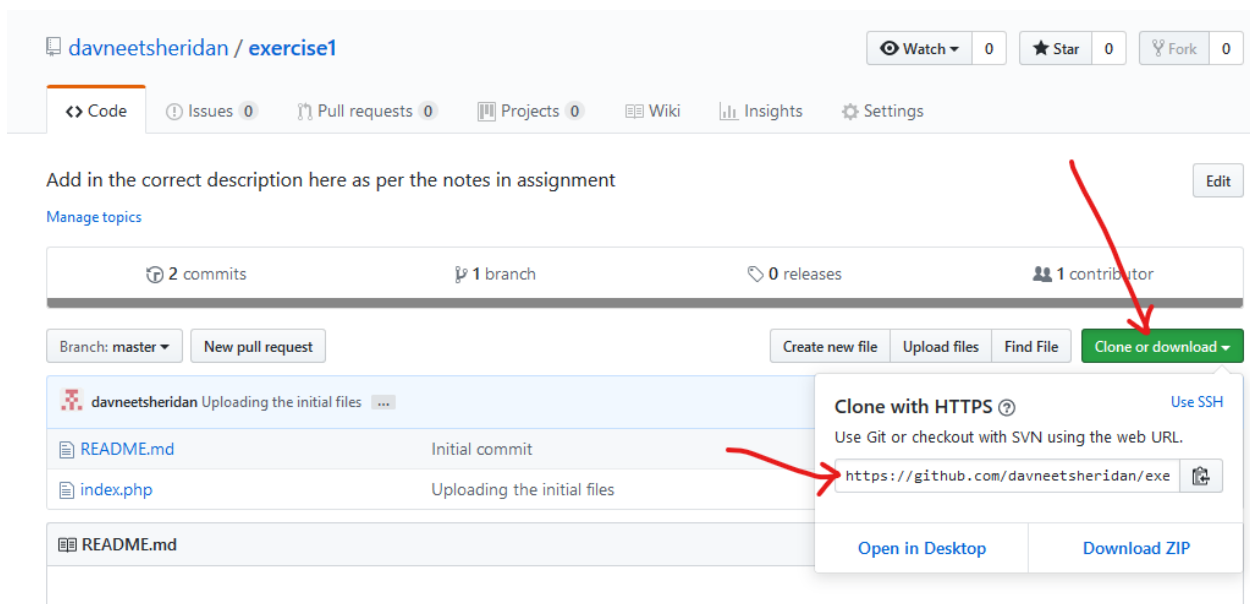

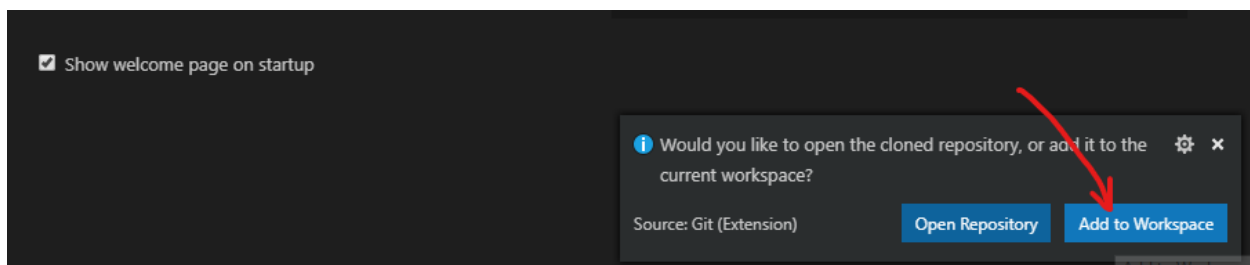

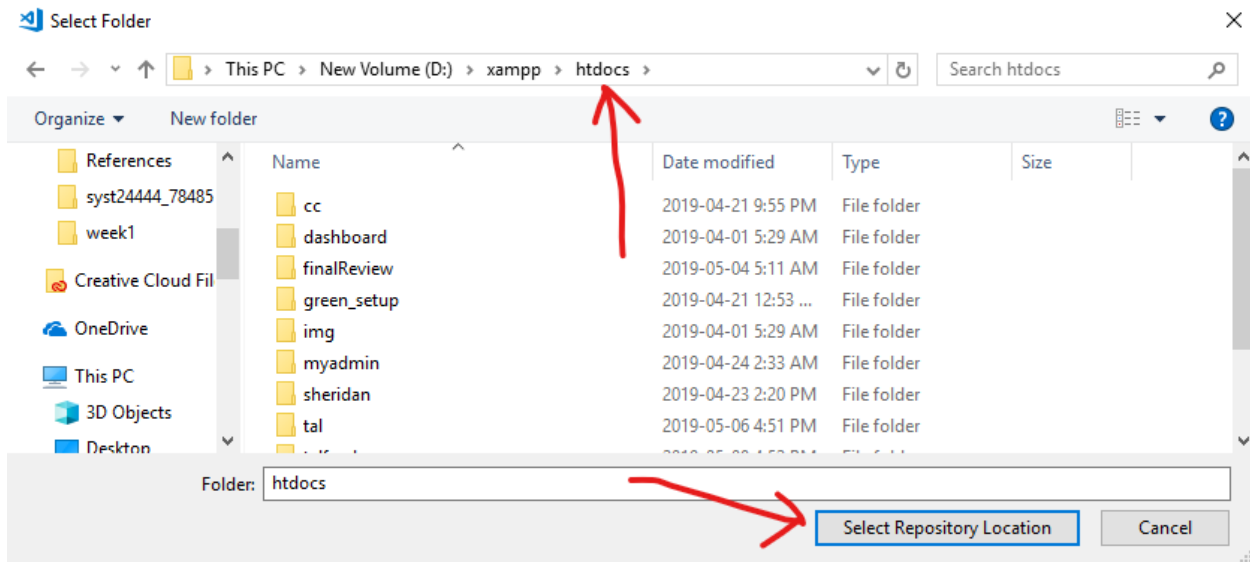

I have taken screenshots of some of the settings I changed and the rest can be default options for installation.

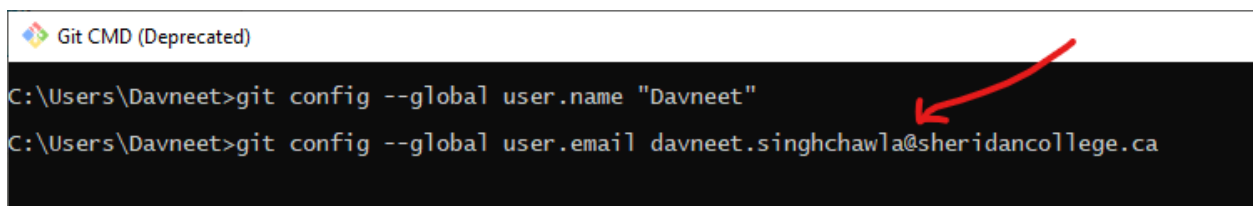

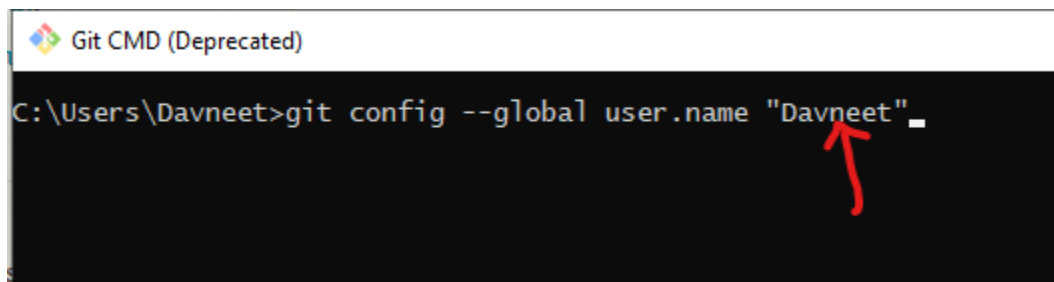

## Step 7: Clone files from Git repo to your computer

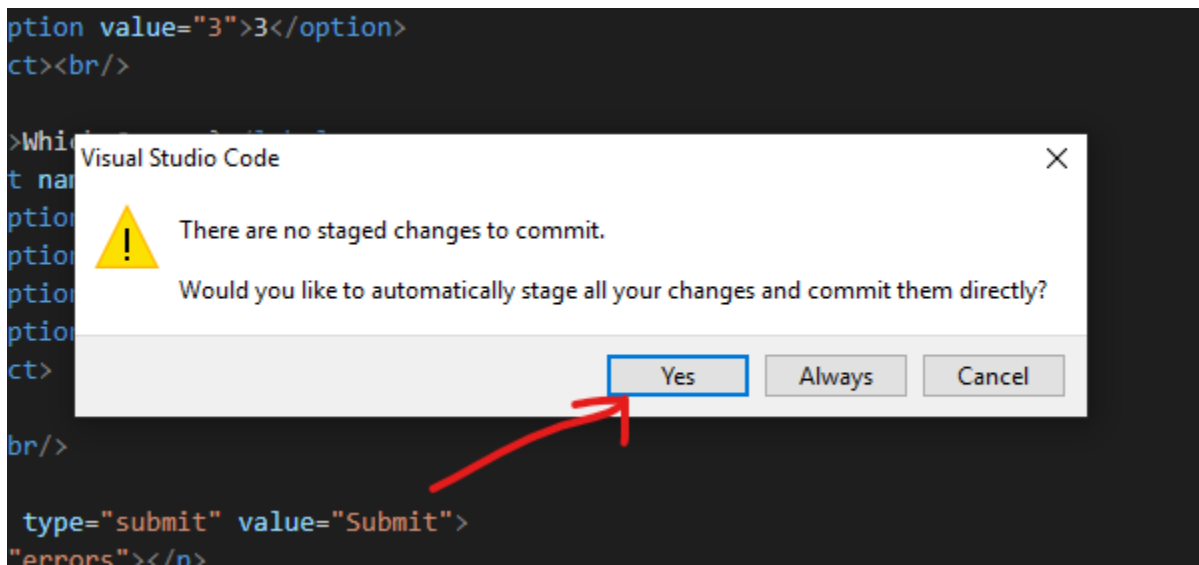

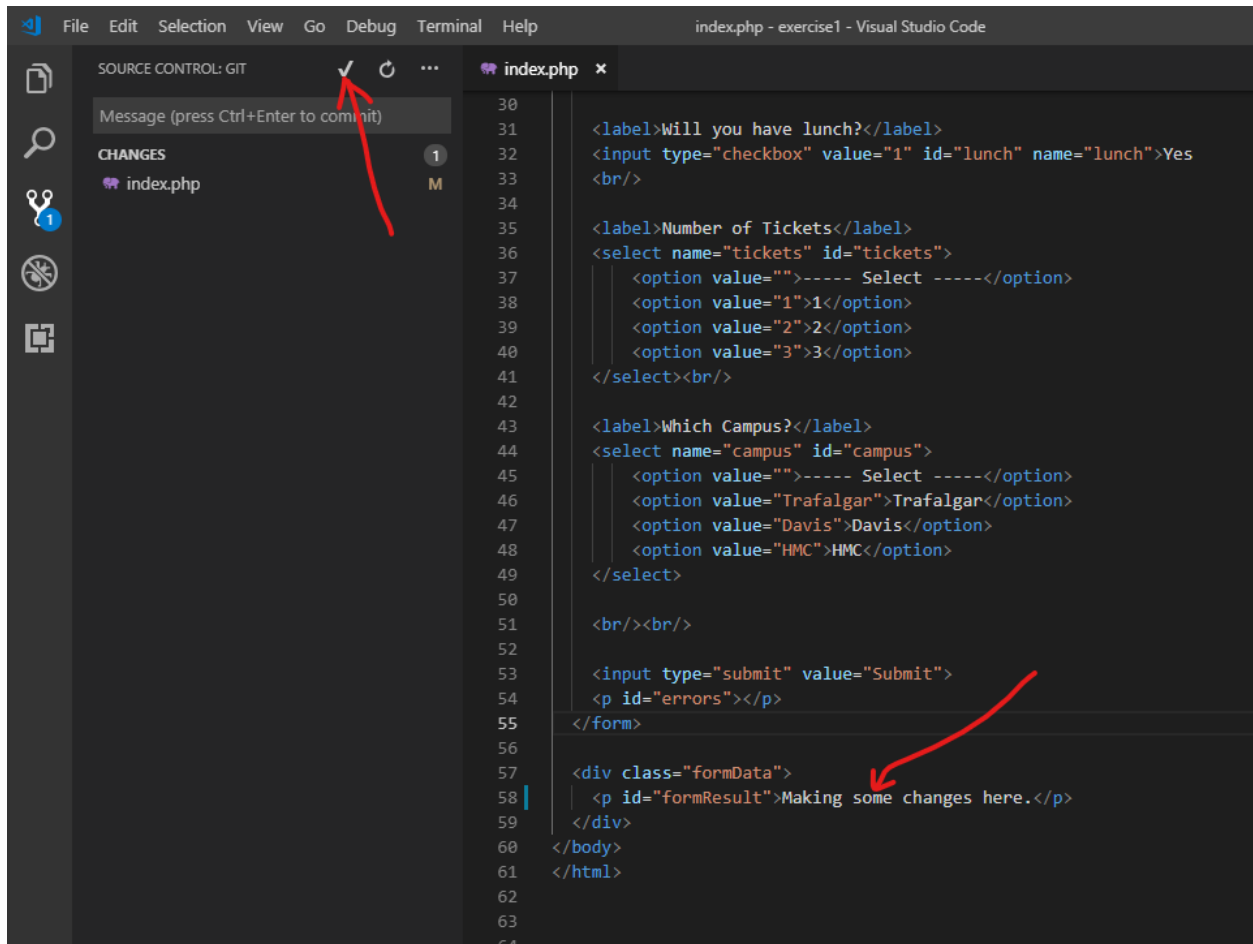

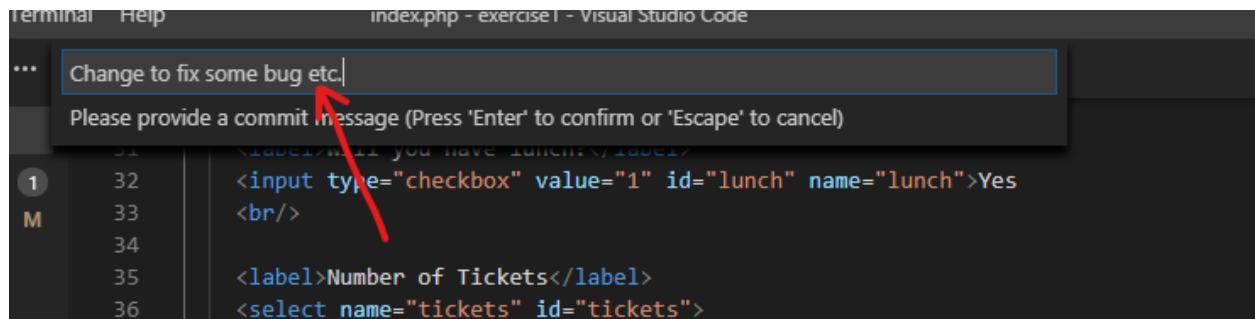

## Step 8: Set your identity for pushing changes to GitHub

## Step 9: Make changes and push to GitHub

The screenshot shows a code editor window titled 'index.php - exercise 1 - Visual Studio Code'. A commit message dialog box is open, with the text 'Change to fix some bug etc.' entered in the input field. Below the input field, it says 'Please provide a commit message (Press 'Enter' to confirm or 'Escape' to cancel)'. A red arrow points from the text 'Change to fix some bug etc.' to the input field. The background code is HTML, showing lines 31 to 36. Line 32 contains an input checkbox with type='checkbox', value='1', id='lunch', and name='lunch'. Line 33 contains a closing br tag. Line 35 contains a label 'Number of Tickets'. Line 36 contains a select tag with name='tickets' and id='tickets'.

```
31 </label>If you have lunch: </label>  
32 <input type="checkbox" value="1" id="lunch" name="lunch">Yes  
33 <br/>  
34  
35 <label>Number of Tickets</label>  
36 <select name="tickets" id="tickets">
```

Write there any comments to tell yourself or others what changes you made and why.
